“Because of this history, his fiercest critics have invested Ratzinger with something of a Star Wars-esque mythical quality. How does one move from Ratzinger, the progressive firebrand, to Ratzinger the chief inquisitor? Every time Ratzinger censures a thinker, bans a book, condemns a line of thought, or otherwise involves himself in trying to redirect some of the currents that flowed from the council, people wonder if this can be the same person. In the imagination of some liberal critics, Ratzinger’s life story would make a script worthy of George Lucas: the young Jedi Knight who went over to the Dark Side of the Force.”

‘Integrity and honesty,’ he repeated. ‘Interesting words to use in regard to a man with Captain Solo’s somewhat checkered reputation.’
